Why Indoor Air Quality Matters to All of Us!

Indoor air environments can affect the Health of the people who live in them. As energy costs have risen, air tightness in our homes has increased “trapping indoor air particulates”. Statistics show, we now spend a remarkable 90%* of our lives indoors. We live, work, grow & play in artificial environments. The concern is, are they healthy? *EPA data

Respicaire® Ion Plasma System™ - Helps Remove Unwanted Airborne Allergens & Micro-Particles

Bacteria

Spores

Dust Mites

Pollen

Allergens

Respicaire® Ion Plasma Air Treatment System... Around the Clock!

At Respicaire®, we specialise in the removal, cleansing, elimination & treatment of airborne & surface particulates, microbials, pathogens, gases & odors.

The Respicaire® Ion Plasma Air Treatment System™ is a completely natural air enhancement device that features active ion plasma to help freshen & treat your indoor air. Its' unique “Venturi Emission” system optimizes ion output to help control airborne odors, gases & particulates. It is designed to be installed in your central heating & cooling system to help treat your indoor air as well as control the buildup of contaminants on your indoor cooling coil.

Ion plasma is a well-known, natural method for controlling airborne contaminants. At Respicaire® we lead the way on patented “polarized” air cleansing technology. Our unique patented designs can be found in over two million air cleaning devices worldwide.

Unique Features for Optimum Performance

QUAD TUNGSTEN
NO CLOGGING
NEEDLES

4 POST
MAGNETIC
BASE FOR QUICK
INSTALLATION
